HI-FI RACKS LIMITED

Key features of the Podium Reference

Clean Lines

The Top level has no holes on the surface leaving nice clean lines

Any Size

As we make all our racks you can have them in any width, depth or height to meet your requirements

Leg Length

The Leg length is the size of the opening including spike

Removable Legs

All legs are removable so they can go on any level or be removed and replaced for future expansion

Spikes & Discs

Spikes come with every tier and locating discs are supplied for the base

Solid Hardwood

We only use solid Hardwood in construction offering the best aesthetics and acoustic performance

No Extra Cost

You can have any leg length for no extra cost.

The area highlighted represents 1 tier

Max Load

Each Tier can support **150Kg**
