

DA2 digital audio module

- The DA2 Digital Audio Module is our newest and most advanced module for processing digital audio. It comes standard in the C53 and C2700 Preamplifiers, allowing both of those units to take advantage of some of the latest innovations in digital audio technology.
- McIntosh home audio products that come with the DA1 Digital Audio Module can be upgraded to the newer DA2 Digital Audio Module.
- The applicable models that can be upgraded are: MA9000, MA8900, MA7200 and MA5300 Integrated Amplifiers; MAC7200 Receiver; and C49 Preamplifier.
- The DA2 builds upon the DA1 with an expanded set of capabilities. It is powered by a next generation, Quad Balanced, 8-channel, 32-bit, audiophile-grade Digital-to-Analog Converter (DAC).
- In addition to having all the same connections as the DA1, a new audio-only HDMI Audio Return Channel (ARC)¹ connection is included on the DA2.
- The DA2's USB input can support native playback of up to DSD512, surpassing the DSD256 limit of the DA1.

1. The HDMI (ARC) input will only play audio from a compatible TV. It will not pass video to or from a TV, or play audio from any non-TV source.

Advanced Digital Audio Module

Up to DSD512

DXD Processing:

Up to DXD 384kHz

Models with DA1 module that can be upgraded to DA2 module:

Integrated Amplifiers:

MA9000
MA8900
MA7200
MA5300

Receivers:

MAC7200

Preamplifiers:

C49

Installation: Due to the technical nature of the DA2 upgrade, the upgrade must be performed by a qualified trained professional at an Authorized McIntosh Dealer or Authorized McIntosh Service Agency. Please note that if the upgrade is performed by anyone other than an Authorized McIntosh Dealer or Authorized McIntosh Service Agency, under the terms of your McIntosh Limited Warranty any resulting damage or failure of your unit will be excluded from warranty coverage.

For the Consumer's Protection: In order to ensure the highest level of customer satisfaction, new McIntosh products may only be purchased from an Authorized McIntosh Dealer; and, with certain limited exceptions may only be purchased over-the-counter or delivered and installed by the Authorized McIntosh Dealer. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized McIntosh Dealer, or that have had their serial numbers altered or defaced.

Typical DA2 installed.

Companion Products

The MA9000, MA8900, MA7200 and MA5300 Integrated Amplifiers; MAC7200 Receiver; and C49 Preamplifier are logical companions for the DA2 Digital Audio Module. Your Authorized Dealer can provide additional information on other McIntosh products.
